## INTEGRATED MANAGEMENT SYSTEM POLICY

Armos Cleaning Solutions offers a full range of cleaning services for commercial, hotel, and specialized industries in Sydney Australia.

The main goal is to become a leading cleaning company in Sydney offering a high level of service to all interested parties ensuring compliance with applicable legal requirements, customer and own needs to achieve this objective. The Senior Management has determined the analysis of the external and internal context as a measure of control of risk management in its operations committing to sustaining and continuously improving the Integrated Management System in accordance with the International Requirements of Quality and Environment Management meeting the needs and expectations of the customer, environmental protection, including pollution prevention, sustainable use of resources and mitigation of climate change through the allocation of financial, infrastructure and technological development resources. We strive to comply with these guidelines, increasing communication and awareness of our human talent, volunteers, suppliers and users at all levels guaranteeing social responsibility.
